

Dunkettle Progress Update

17th November 2023

Twitter

Website

Surfacing Works are being progressed across a number of areas of the site:

- The final wearing course on the N8 (Link F) and M8 (Link D) approach to the Jack Lynch Tunnel has been installed.
- The final wearing course will be installed along the full extent of the N40 northbound over the coming period also under night-time working -see layout plan above and photograph below

Surfacing works being undertaken on the N40 North of the Jack Lynch Tunnel under night-time working

- The final wearing course for the new link roads will be completed at Link C during January 2024 – details will be confirmed in advance.

- The full concrete parapet wall across Structure ST08 (West) has now been installed over Link T – see photograph below.

Concrete parapets installed at Link T for ST08 (West)

- The main focus will continue to be on the completion of Link C over the coming period. At present, the concrete safety barrier between Link A and Link C is being installed – see photograph below. Earthworks are also being progressed for Link C in the vicinity of the old R623 approach to the Dunkettle interchange – see photograph below.

Works ongoing for the installation of the new concrete safety barrier between Link A and Link C in the vicinity of the old Dunkettle Interchange Roundabout

Embankment Construction Works ongoing for Link C at the intersection with the old R623 road
